

The background of the slide is a vibrant green color with a complex, repeating pattern of yellow and white circuit traces, resembling a printed circuit board (PCB). The traces are interconnected in a grid-like fashion, with some lines curving and branching. Small white dots are scattered throughout the green field, adding to the technical aesthetic.

LBF Elettronica sas

Company profile

About us

LBF
Elettronica Sas

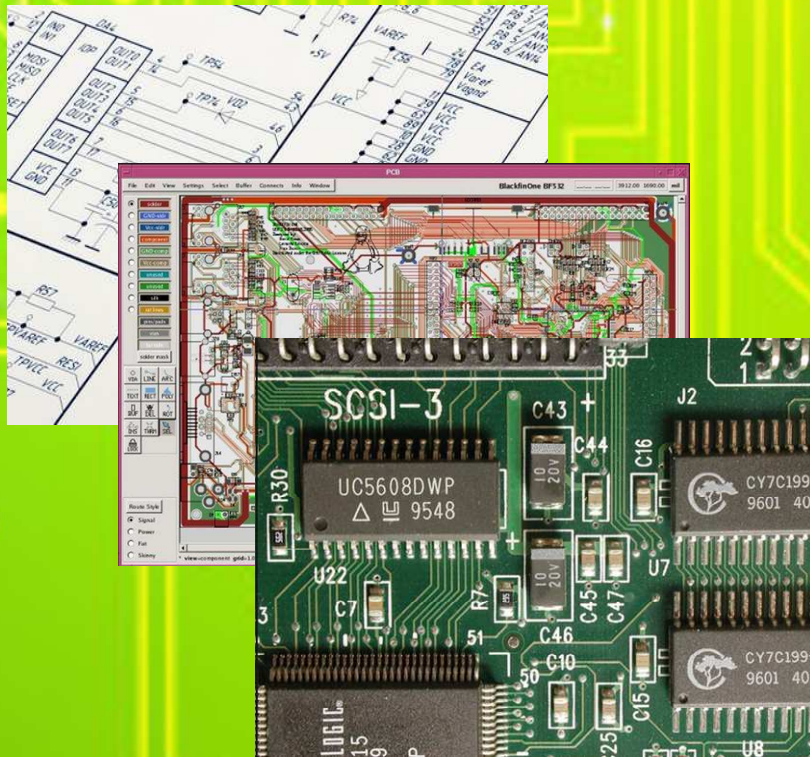

- LBF Elettronica sas, a privately owned company specialized in design and production of electronic equipment and electronic board located in Rovellasca southern part of Como area, since 2005 serving customers who require high technical capability, strong process and quality control systems.
